FOR IMMEDIATE RELEASE

SPRING LOAD RESTRICTIONS

February 17, 2017

Lyon County is announcing that truck spring load restrictions will be starting Friday February 17, 2017 for all Lyon County Highways.

The Minnesota Department of Transportation has announced the starting date of spring load restrictions in the SOUTH FROST ZONES starting on Friday, February 17, 2017 at 12:01 a.m.

In general, spring load restrictions on local roads (county, city and township roads) follow the same dates as the State Trunk Highways, however any local road can be restricted at any time during the year so long as the restricted load limit is posted. This depends on the condition of the roads. The local road authority can keep spring restrictions on longer if they deem them necessary. MnDOT can keep state highways weight-restricted for a maximum of 8 consecutive weeks.

The Lyon County 2017 Spring Load Restriction map can be viewed at the Lyon County website at www.lyonco.org. A regional map showing neighboring counties' road postings is also available.

Please contact the Lyon County Highway Department at (507) 532-8205 for further information.
