

Battery Disposal

Small Effort: Dispose of batteries properly – they aren't all handled the same!

BIG IMPACT

Alkaline Batteries

Can be disposed in trash

- 1. Keep our environment safe.** Household batteries may contain heavy metals such as nickel cadmium, carbon zinc or mercury which can be harmful to the environment if disposed of improperly.
- 2. Reduce fire hazard at the garbage facility, especially lithium batteries.**

Rechargeable Batteries and Button Batteries (from watches, calculators, etc)
