LAKE INFO & RESTRICTIONS

East and West Twin Lake are among the finest lakes in Southwest Minnesota. Due to the unique and rare plant diversity in West Twin lake it was dedicated to a non-mortorized lake in order to minimize negative impacts to the water clarity. Trolling motors are allowed on West Twin Lake , but gas powered motors are not. However, this limits fishing pressure to allow for better management and provides day-trip canoeing without the hassle of competing with motor boats. There are only two lakes in Lyon County that provide for this type of experience.

CAMPING

Twin Lakes Park offers 28 electrical sites in total. All sites have a 14-day maximum site occupancy rule before you must change sites. Sites are considered occupied ONLY if a registered motor vehicle is parked in the camping pad or tent is occupying the site

NORTH CAMPGROUND

Sites 1-15 (site #11 is host site). All sites are electric only. Sites 15 is the Host Site.

- Shower Facility
