Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

This year I have spent a lot of time focusing on feedlots that have not ever had an inspection completed. We do not have many sites located within shoreland so most of the sites were inspected in 2022 and the final two were inspected this year (2023). All inspections are done on sites that have inspections that are outdated, two inspections were in shoreland, nine feedlots have never been inspected until 2023. All of these inspections follow along with the priorities established in Lyon County Work Plan.
